

VAIBHAV VENU

AI PRODUCT OPERATOR | FOUNDER'S OFFICE | CHIEF OF STAFF | GTM x AGENTIC AI

Bengaluru, India | Open to relocation: Europe, Middle East, North America | venuvaibhav93@gmail.com | vaibhav.venu@outlook.com | +91 9901817440 | linkedin.com/in/vaibhavvenu

EXECUTIVE PROFILE

AI-native Founder's Office and Product/GTM operator with 12+ years of experience building operating systems, GTM engines, AI workflows, partnerships, revenue programs and product execution across SaaS, AI, fintech, education, ecommerce, travel and enterprise software. Combines executive strategy with hands-on AI product building: Claude API, OpenAI/Gemini APIs, Model Context Protocol, agentic workflows, RAG, context engineering, workflow orchestration, sales intelligence, AI copilots and automation pipelines.

Has worked directly with founders and leadership teams across India, UAE, Southeast Asia, Canada and the United States, translating ambiguity into execution, building teams and systems from 0 to 1, and scaling initiatives from pilots to millions of users, dollars in pipeline, and multi-market operating cadence.

CAREER HIGHLIGHTS

- Led enterprise AI and workflow transformation programs across North America, delivering up to 4x operational efficiency and 60-80% reduction in manual work.
- Built and scaled GTM, launch and operating systems across startup, scale-up and founder-led environments including Swiggy, ClearTax, Flynote, Zostel, AutomateItPlease and ReversePilot.
- Helped scale learner/community adoption to 5M+ users and supported international expansion across India, UAE, Singapore, Indonesia, Thailand and Sri Lanka.
- Managed or supported revenue and business portfolios ranging from \$100K to \$10M+, including enterprise, B2B, B2G, marketplace and SaaS initiatives.
- Built AI knowledge systems, research agents, GTM intelligence workflows, CRM copilots and founder operating systems using modern LLM tooling.
- Cross-functional leadership across product, engineering, sales, partnerships, operations, finance, marketing, implementation and executive teams.

TECHNOLOGY ERA MAP - HOW MY OPERATING SYSTEM EVOLVED

Era	Companies / Work	Technology Used Then	How It Evolved
2015-2018: Digital Growth & Marketplace Infrastructure	Swiggy, Fullerton Solutions, ClearTax	SEO, PPC, analytics, landing pages, city launch playbooks, operational SOPs, dashboards, CRM workflows.	Moved from channel-level growth to repeatable launch engines, marketplace operations and structured reporting systems.
2019-2021: Product-led Growth, B2B/B2G Scale & Remote Operating Systems	Flynote, WhiteHat Jr, Instoried	Product coordination, revenue operations, institutional sales, growth funnels, community systems, remote execution cadence.	Evolved from operations to founder-office execution: connecting product, sales, marketing and delivery into measurable business outcomes.
2021-2023: Platform, Community, Web3 & International Expansion	Colladome	Token-gated learning, NFT credentialing, platform adoption, partnerships, international GTM.	Evolved into ecosystem thinking: community-led distribution, multi-market partnerships and product positioning for new technology categories.
2023-2025: Enterprise AI Automation & Workflow Transformation	AutomateItPlease, Baraka Impact, Moodscope AI	ChatGPT, Claude, Vertex AI, Zapier, Make, CRM/ERP automation, document intelligence, conversational AI, workflow redesign.	Shifted from automation adoption to AI operating systems: redesigning processes first, then deploying LLM-powered workflows and copilots.
2025-2026: AI-native Product Systems & Agentic Infrastructure	Zostel, ReversePilot, BrightLoop, Copilot Agents, Energy Intelligence	Claude API, OpenAI API, Gemini, Claude Code, Cursor, MCP, RAG, agents, context engineering, LangGraph, CrewAI, n8n, Supabase, Vercel.	Now building agentic products: AI knowledge layers, GTM intelligence systems, product copilots, AI research agents and domain-specific operating systems.

CORE CAPABILITIES

Founder's Office | Chief of Staff | AI Product Management | Agentic AI | LLM Applications | Context Engineering | Model Context Protocol | AI Workflow Design | GTM Strategy | Revenue Operations | Product Strategy | Enterprise AI | Strategic Programs | Cross-functional Leadership | International Expansion | Business Operations | Partnerships | Customer Discovery | Executive Communications

AI ENGINEERING, PRODUCT & GTM STACK

Claude API, OpenAI API, Gemini API, Vertex AI, Claude Code, Cursor, GitHub Copilot, Anthropic Console, Google AI Studio, NotebookLM, Model Context Protocol, Prompt Engineering, Context Engineering, Function Calling, Structured Outputs, Tool Use, Reasoning Models, RAG, Embeddings, Vector Search, LLM Evaluation, AI Agents, Multi-agent Systems, LangGraph, CrewAI, n8n, Make, Zapier, REST APIs, Webhooks, JSON, Lovable, Vercel, Supabase, Firebase, GitHub, Figma, Jira, Linear, Notion, HubSpot, Apollo, Clay, Smartlead, GA4, Google Ads, SEO, ABM, CRM Workflows, KPI Dashboards.

PROFESSIONAL EXPERIENCE

SOUTH RIVER MORTGAGE / REVERSEPILOT | Business & Growth Generalist - Founder's Office / AI GTM — Remote / US

Market | Jun 2026 - Present

- Driving GTM, product positioning, account intelligence and operating cadence for ReversePilot, an AI-enabled reverse mortgage LOS/intelligence platform, and WholesaleReverse broker portal.
- Built ICP, pricing, account segmentation, Apollo ABM, event intelligence, social calendar and target account research systems across reverse mortgage lenders, brokers, credit unions and HECM/proprietary lending stakeholders.
- Created AI knowledge-bank structures and Microsoft Copilot agent instructions for daily mortgage news, account research, content ideation, CRM enrichment and sales workflows.
- Partnering with founder/leadership team across product, website strategy, launch messaging, GTM execution, market education and enterprise sales readiness.

ZOSTEL / ZO WORLD | Founder's Office - New Initiatives — Gurugram, India | Apr 2025 - 2026

- Drove strategic initiatives across hospitality, travel infrastructure, OTA systems, villas, creator/community programs and corporate travel/offsite booking operations.
- Built execution frameworks connecting product, operations, partnerships, growth and implementation teams with KPIs, governance cadence and decision tracking.
- Coordinated OTA expansion and distribution integrations with SiteMinder, Cloudbeds and eZee across Thailand, Indonesia, Sri Lanka and Southeast Asia.
- Supported growth of new business lines including Zo for Teams and creator-led distribution initiatives, contributing to multi-market operating scale.

AUTOMATEITPLEASE! | COO - Enterprise AI & Operations — Mumbai, India / North America | Oct 2023 - Apr 2025

- Led 20+ enterprise AI implementation programs across conversational AI, workflow automation, CRM copilots, document intelligence, sales operations, customer support and internal operating systems.
- Redesigned workflows before automation deployment, improving operational efficiency by up to 4x and reducing manual effort by 60-80% across client environments.
- Built AI adoption programs for US and Canadian businesses spanning CRM/ERP systems, lead management, lifecycle automation, document processing and executive dashboards.
- Managed cross-functional execution across engineering, operations, implementation, customer success, sales and leadership stakeholders.

COLLADOME | Chief of Staff - GTM & Product Strategy — Dubai, UAE | Nov 2021 - Sep 2023

- Partnered with founders across strategic planning, GTM execution, international expansion, partnerships and operational scaling.
- Helped scale platform adoption to 5M+ learners through community-led growth, strategic GTM initiatives and ecosystem partnerships.
- Supported positioning and execution during Web3 transformation including token-gated learning systems and NFT credentialing initiatives.
- Built B2B partnerships across India, Dubai, Singapore and Southeast Asia while improving product-GTM-leadership alignment.

WHITEHAT JR | Sales Director - B2B / B2G / B2C — Mumbai, India | Aug 2020 - Oct 2021

- Managed large-scale sales operations, performance systems, lead management cadence and operational reporting across institutional, enterprise and consumer revenue functions.
- Improved sales execution through coaching frameworks, process optimization, funnel visibility and structured team operating rhythms.

FLYNOTE | Chief of Staff - CEO's Office, Product & Strategy — Bengaluru, India | May 2019 - May 2020

- Worked across executive operations, strategic initiatives, product coordination, revenue, growth and cross-functional business execution.
- Built operating rhythms connecting founder priorities with product, marketing, sales and operational stakeholders across expansion initiatives.

CLEARTAX | CEO's Office - Business Manager, Marketplace-as-a-Service — Bengaluru, India | Dec 2017 - May 2019

- Led growth and operating systems across GST filing, tax filing, company incorporation and financial services marketplace initiatives.
- Built reporting systems, SOPs, operating workflows and execution frameworks to improve conversion consistency and business velocity.

FULLERTON SOLUTIONS | Product Marketing Manager — Bengaluru, India | Oct 2015 - Nov 2017

- Owned SEO, PPC, analytics, campaign operations and conversion optimization across digital growth initiatives.
- Achieved 300% user acquisition growth, 200% conversion improvement and 150%+ organic traffic improvement through landing page, campaign and funnel optimization.

SWIGGY | Launch Manager - Sales & Expansion — Bengaluru, Gurgaon, Hyderabad | Jan 2015 - Sep 2015

Vaibhav Venu | AI Product Operator & Founder's Office

- Supported city launch operations across Bengaluru, Gurgaon and Hyderabad, building onboarding, logistics mapping, supply acquisition and operational playbooks for early-stage scale.
- Worked across city-level sales, restaurant onboarding, execution tracking and local market activation.

SELECTED AI, PRODUCT & STRATEGIC PROJECTS

- BrightLoop - AI-powered developmental intelligence OS for children: assessment layer, developmental scoring, learning pathways and AI-guided interventions for schools, parents, therapists and edtech companies.
- ReversePilot GTM Intelligence OS - account research, ICP mapping, pricing logic, content calendar, news intelligence and Copilot agent architecture for reverse mortgage SaaS expansion.
- Energy Intelligence Platform - C&I electricity-bill intelligence, financial optimisation, asset intelligence and VPP evolution thesis for underserved commercial/industrial energy customers.
- Microsoft Copilot Agents - agent architecture and knowledge-bank design for news monitoring, account research, CRM enrichment, email assistance and social content workflows.
- Baraka Impact Corp - ecommerce operations, AI retention and lifecycle systems contributing to 50%+ retention improvement and \$1M+ growth milestones.
- Instoried Research Labs - enterprise GTM and AI positioning support during early AI adoption and expansion toward \$10M ARR.
- Moodscope AI - founding GTM for Vision AI systems across US and Canadian markets, supporting enterprise acquisition and deployment.

CERTIFICATIONS & MODERN AI TRAINING

Provider	Completed Certifications	Relevance
Anthropic	Building with the Claude API; Claude Code; Prompt Engineering with Claude; Model Context Protocol (MCP) Fundamentals; Advanced Model Context Protocol (MCP).	Claude-native application development, tool use, context systems and agent integration.
DeepLearning.AI / Andrew Ng	Agentic AI for Developers; AI Agentic Design Patterns; Building AI Agents with LLMs; Multi-Agent Systems; AI Product Management; LangGraph for Agentic AI; Building Systems with ChatGPT API.	Modern agent design, productization, orchestration, multi-agent systems and AI product thinking.
Google / Automation Ecosystem	Vertex AI Generative AI; CrewAI Fundamentals; n8n AI Automation; OpenAI API Developer coursework.	Production AI workflows, orchestration, automation, API-driven systems and enterprise implementation.

EDUCATION

Chartered Accountant (CA), Institute of Chartered Accountants of India (ICAI) | Bachelor of Commerce (Honors), Jain University

ADDITIONAL INFORMATION

Global exposure: India, UAE, Canada, United States, Southeast Asia and European market research. Languages: English, Hindi, Kannada, Telugu, Tamil, Punjabi. Open to relocation for founder-office, AI product, GTM, accelerator, EIR and 0-to-1 company-building roles.
